

Preliminary Results of 2010 Census of Agriculture, Forestry and Fisheries

Agriculture

- The number of farm households dropped by 7.5 percent from 1,273 thousand households in 2005 to 1,177 thousand households.

< Farm household size >

(Unit: thousand households, %)

Classification	2005	2010	Change	
			Change	Percent change
Farm households nationwide	1,273	1,177	-95	-7.5
Dong	212	223	11	5.1
Eup & Myeon	1,061	955	-106	-10.0

- The population of farm households fell by 10.7 percent from 3,434 thousand persons in 2005 to 3,068 thousand persons in 2010.

< Farm household population size >

(Unit: thousand persons, %)

Classification	2005		2010		Change	Percent change
	2005	Percent	2010	Percent		
Farm household population	3,434	100.0	3,068	100.0	-366	-10.7
Males	1,677	48.8	1,505	49.1	-171	-10.2
Females	1,757	51.2	1,562	50.9	-195	-11.1
Farm household population per household	2.7 persons		2.6 persons		-0.1 person	-3.4

- Farm households with 3 hectares or more increased by 8.1 percent. The cultivated area per farm household rose by 6.1 percent.

< Number of farm households by size of cultivated area >

(Unit: thousand households, %)

Year	Total	Farm households without cultivated area	Farm households by size of cultivated area					Cultivated area per farm household (ha)	
			Subtotal	Less than 0.5ha	0.5 ~ 1.0	1.0 ~ 2.0	2.0 ~ 3.0		3.0ha or more
2005	1,273 (100.0)	17 (1.3)	1,256 (98.7)	458 (36.0)	331 (26.0)	281 (22.1)	93 (7.3)	93 (7.3)	1.19
2010	1,177 (100.0)	16 (1.4)	1,161 (98.6)	420 (35.6)	299 (25.4)	256 (21.7)	86 (7.3)	101 (8.6)	1.26
Change	-95	-1	-95	-38	-32	-25	-7	8	0.07
Percent change	-7.5	-5.4	-7.5	-8.4	-9.6	-8.8	-7.9	8.1	6.1

- As for type of agriculture, the share of farm households growing paddy rice dropped by 5.9%p, while that of farm households growing fruits rose by 3.1%p.

Fisheries

- The number of fishery households decreased by 17.7 percent from 80 thousand households in 2005 to 66 thousand households in 2010.

< Fishery household size >

(Unit: thousand households, %)

Classification	2005	2010	Change	
			Change	Percent change
Fishery households nationwide	80	66	-14	-17.7
Dong	15	12	-3	-17.9
Eup & Myeon	65	53	-11	-17.7

- The population of fishery households declined by 22.6 percent from 221 thousand persons in 2005 to 171 thousand persons in 2010.

< Fishery household population size >

(Unit: thousand persons, %)

Classification	2005		2010		Change	Percent change
	2005	Percent	2010	Percent		
Fishery household population	221	100.0	171	100.0	-50	-22.6
Males	111	50.0	86	50.0	-25	-22.6
Females	110	50.0	86	50.0	-25	-22.6
Fishery household population per household	2.8 persons		2.6 persons		-0.2 person	-7.1

- The number of aquaculture households went down by 28.0 percent. The number of fishery households with fishing vessels dropped by 19.9 percent.

Forestry

- The number of forestry households went down by 1.8 percent from 97 thousand households in 2005 to 95 thousand households in 2010.

< Forestry household size >

(Unit: thousand households, %)

Classification	2005	2010	Change	
			Change	Percent change
Forestry households	97	95	-2	-1.8
Dong	14	15	1	9.6
Eup & Myeon	84	80	-3	-3.6
Share of forestry households	0.6	0.6		0.0%p

- The population of forestry households decreased by 4.6 percent from 264 thousand persons in 2005 to 252 thousand persons in 2010.

< Forestry household population size >

(Unit: thousand persons, %)

Classification	2005		2010		Change	Percent change
	2005	Percent	2010	Percent		
Forestry household population	264	100.0	252	100.0	-12	-4.6
Males	131	49.6	126	49.9	-5	-4.0
Females	133	50.4	127	50.1	-7	-5.1
Forestry household population per household	2.7		2.6		-0.1	-2.8
Share of forestry household population	0.6		0.5			-0.1%p

- As for type of forestry, the number of forestry households in forestation, logging, nursery and gathering was 17 thousand households.

Changes in basic structures of agriculture and fisheries (2000 to 2010)

Agriculture

	Unit	2000	2005	2010
<input type="checkbox"/> Number of farm households (Share in ordinary households)	Thousand households (%)	1,383 (9.7)	1,273 (8.0)	1,177 (6.8)
<input type="checkbox"/> Population of farm households (Share in ordinary households)	Thousand persons (%)	4,031 (8.8)	3,434 (7.3)	3,068 (6.4)
<input type="radio"/> Average number of household members	Persons	2.9	2.7	2.6
<input type="radio"/> Sex ratio		95.7	95.4	96.3
<input type="checkbox"/> Agricultural management structure				
<input type="radio"/> Share of full-time farm households	%	65.2	62.6	53.7
<input type="radio"/> Share of part-time farm households		34.8	37.4	46.3
<input type="radio"/> Cultivated area per farm household	ha	1.16	1.19	1.26
<input type="radio"/> Farm households growing paddy rice	%	56.9	50.9	45.0

Fisheries

	Unit	2000	2005	2010
<input type="checkbox"/> Number of fishery households (Share in ordinary households)	Thousand households (%)	82 (0.6)	80 (0.5)	66 (0.4)
<input type="checkbox"/> Population of fishery households (Share in ordinary households)	Thousand persons (%)	251 (0.5)	221 (0.5)	171 (0.4)
<input type="radio"/> Average number of household members	Person	3.1	2.8	2.6
<input type="radio"/> Sex ratio		101.8	100.2	100.2
<input type="checkbox"/> Fishery management structure				
<input type="radio"/> Share of full-time fishery households	%	36.4	31.7	28.4
<input type="radio"/> Share of part-time fishery households		63.6	68.3	71.6
<input type="radio"/> Fishing households	%	69.6	69.9	73.7
<input type="radio"/> Aquaculture households		30.4	30.1	26.3
<input type="radio"/> Fishery households with less than 2 tons of fishing vessels	%	32.8 8.9	30.4 9.7	28.1 10.5
<input type="radio"/> Fishery households with 5 tons or more of fishing vessels
