Administrative Statistics on the Population Aged 40~64 in 2020

## 1. Individuals

## - Population

As of November 1, 2020, the population aged $40-64$ was 20.086 million persons, which occupied $40.1 \%$ of the total population.The population aged 40~64 was 20.086 million persons, which occupied $40.1 \%$ of the total population. This figure increased by 107 thousand persons (0.5\%) from 2019.

O (Population by gender and age)
Males and females occupied $50.2 \%$ and $49.8 \%$ of the total population aged 40~64, respectively. The population aged '50~54' and '45~49' accounted for $21.1 \%$ and $20.9 \%$ of the total population, respectively. The population aged '55~59' accounted for 20.4\% of the total population.
< Population aged 40-64 (thousand persons) (2020) >

## - Economic activities (Population registered as employed)

In October 2020, the population (aged 40-64) registered as employed totaled 13.041 million persons, which took up $64.9 \%$ of the total population aged 40-64.
$\square$ In October 2020, the population (aged 40~64) registered as employed totaled 13.041 million persons, which accounted for $64.9 \%$ of the total population aged $40 \sim 64$.

[^0]O Wage and non-wage workers occupied $77.7 \%$ and $18.4 \%$, respectively. Employed persons registered as wage workers as well as non-wage workers occupied $4.0 \%$.

## - Change in economic activities*

* Change in economic activities between October 2019 and October 2020

Compared to the previous year, the population showing a change in employment status totaled 2.803 million persons (14.0\%).
$\diamond$ Among the population remaining 'Registered as employed', 502 thousand persons (4.3\%) showed a change in worker status.
$\diamond$ Founders establishing an enterprise totaled 288 thousand persons, which took up $1.4 \%$ of the total population aged 40-64.

## (Change in employment status)

Compared to a year ago, the population showing a change* in employment status totaled 2.803 million persons, which occupied $14.0 \%$ of the total population aged 40~64.

* Unemployed $\rightarrow$ Registered as employed, Registered as employed $\rightarrow$ Unemployed

O The population showing a change from 'Not registered as employed' in 2019 to 'Registered as employed' in 2020 totaled 1.425 million persons, which occupied $7.1 \%$ of the total population aged 40~64.

O The population showing a change from 'Registered as employed' in 2019 to 'Not registered as employed' in 2020 totaled 1.378 million persons, which occupied $6.9 \%$ of the total population aged 40~64.

## $\square$ (Change in worker status)

The population registered as employed in 2019 and 2020 amounted to 11.615 million persons. Among them, the population showing a change in worker status amounted to 502 thousand persons, which took up $4.3 \%$ of the total the population remaining 'Registered as employed'.
$\square$ (Founders establishing an enterprise)
Founders registering an enterprise for the past 1 year and operating the same enterprise as of October 2020 totaled 288 thousand persons, which occupied $1.4 \%$ of the total population aged 40~64.
O The largest share of founders (51.4\%) were 'Not registered as employed' in 2019. As for founders by age group, the population aged 45~49 occupied the largest share at 23.8\%.

< Founders by age group >

## - Economic status of individuals (Income, house ownership and loans)

The average annual income of the population aged 40-64 with income totaled 36.92 million won, rising by $3.8 \%$ from 2019.

The population owning a housing unit occupied $43.1 \%$ of the total population aged 40-64. This share went up by 0.6\%p from 2019.
The population with loans from financial institutions occupied $56.5 \%$ of the population aged 40-64. Their median value of loans stood at 52.00 million won.

## $\square$ (Income)

In 2020, the population with employee income and self-employment income took up 76.4\% of the total population aged 40~64. This share went up by $0.8 \%$ p from $75.6 \%$ in 2019.

* Share of the population aged 40-64 with income: 71.8\% (2016) $\rightarrow 73.2 \%$ (2017) $\rightarrow 74.2 \%$ (2018) $\rightarrow 75.6 \%$ (2019) $\rightarrow 76.4 \%$ (2020)

O Their average annual income recorded 36.92 million won, rising by $3.8 \%$ from 35.55 million won in 2019. The population aged 45~49 recorded the highest average income of 40.44 million won.
$\square$ (Housing)
As of November 1, 2020, the population owning a housing unit occupied 43.1\% of the population aged 40~64. This share went up $0.6 \%$ p from $42.6 \%$ in 2019.

* Share of the population aged 40-64 owning a housing unit: $40.8 \%$ (2016) $\rightarrow 41.3 \%$ (2017) $\rightarrow 42.0 \%$ (2018) $\rightarrow 42.6 \%$ (2019) $\rightarrow 43.1 \%$ (2020)

O The population aged 60~64 recorded the highest share (45.5\%) of the population owning a housing unit. The higher age group, the higher share of the population owning a housing unit.

* Share of the population owing a housing unit: 39.3\% (Ages 40-44) $\rightarrow 42.6 \%$ (Ages 45-49) $\rightarrow 43.7 \%$ (Ages $50-54$ ) $\rightarrow 44.6 \%$ (Ages $55-59$ ) $\rightarrow 45.5 \%$ (Ages 60-64)

## (Loans)

As of November 1, 2020, the population with loans from financial institutions occupied $56.5 \%$ of the population aged $40 \sim 64$. This share went up $0.2 \%$ prom $56.3 \%$ in 2019.

* Share of the population aged 40-64 with loans: $55.3 \%(2017) \rightarrow 56.1 \%(2018) \rightarrow 56.3 \%(2019)$ $\rightarrow$ 56.5\% (2020)

O Their median value of loans recorded 52.00 million won, rising by $7.1 \%$ from 48.56 million won in 2019.

* Median value of loans: 41.28 million won $(2017) \rightarrow 44.59$ million won $(2018) \rightarrow 48.56$ million won (2019) $\rightarrow 52.00$ million won (2020)

O The population aged 40~44 recorded the highest median value of loans at 63.00 million won.
< Share of the population with income and average annual income (2020) >
< Share of the population with loans and median value of loans (2020) >

## - Pension subscription status

The population joining a public pension and a retirement pension was 15.133 million persons, which occupied $75.3 \%$ of the population aged 40-64.In 2020, $75.3 \%$ of the population aged 40~64 joined a public pension and a retirement pension. This share went up by $0.8 \%$ prom $74.6 \%$ in 2019.

* Share of the population aged 40-64 who joined a pension: 73.0\% (2016) $\rightarrow 73.2 \%$ (2017) $\rightarrow 73.8 \%$ (2018) $\rightarrow 74.6 \%$ (2019) $\rightarrow 75.3 \%$ (2020)

## O (Pension by gender)

As for pension subscription by gender, $82.1 \%$ of males aged $40 \sim 64$ joined a pension, which was $13.5 \%$ p higher than females joining a pension (68.6\%).
O (Pension by age group)
As for pension subscription by age group, the population aged $55 \sim 59$ joining a pension showed the highest share at $80.3 \%$. Whereas, the population aged $60 \sim 64$ joining a pension showed the lowest share at 58.3\%.

## 2. Households

Households with a member or more aged 40-64 totaled 13.236 million households, which occupied $63.2 \%$ of the total general households.
$\diamond$ Households owning a housing unit took up $64.3 \%$ of the households with a member or more aged 40-64, up $0.1 \%$ p from 2019.

## (Household members*)

2-person households totaled 3.665 million households, which occupied the highest share at $27.7 \%$ of the total households with a member or more aged $40 \sim 64$. This share was followed by 3 -person households ( $25.8 \%$ ) and 4 -person households ( $21.0 \%$ ). The average number of household members was 2.7 persons.

* Households including at least one person aged 40-64(Household composition)
The households consisting of 'Couples and unmarried children' occupied the largest share at $37.8 \%$, which was followed by '1-person households' (19.1\%).(Type of living quarters and floor area)
Households living in apartments occupied the largest share at $56.7 \%$. As for the floor area of households living in apartments, row houses or apartment units in a private house, 'Above $60 \mathrm{~m}^{2} \sim 100 \mathrm{~m}^{2}$ occupied the largest share at $47.6 \%$.(Living with children)
As for households with heads aged 40~64, $57.4 \%$ of them lived with children. As for households by the age of children, 'Children aged 11~19' occupied the highest share at $37.8 \%$. Among children (aged 19 or more) living in households with heads aged 40~64, $48.4 \%$ of them were registered as unemployed.

## (House ownership)

Households owning a housing unit stood at $64.3 \%$ of the total households with a member aged 40~64. This share went up by $0.1 \%$ p from 2019.

* Share of households owning a housing unit: 62.9\% (2016) $\rightarrow 63.3 \%(2017) \rightarrow 63.7 \%$ (2018) $\rightarrow 64.1 \%$ (2019) $\rightarrow$ 64.3\% (2020)
※ Including housing units that any household member owns (regardless of age)
